## Welcome Addresses

Ladies and gentlemen, dear colleagues, distinguished teachers, dear guests,

On behalf of the Executive Committee, it is a great pleasure to welcome you in Thessaloniki, at the 66<sup>th</sup> Congress of the European Society for Cardiovascular and Endovascular Surgery. The ESCVS is the oldest world organization that gathers cardiac and vascular surgeons. Namely, the ESCVS was founded in 1951 and its founders were pioneers in cardiac and vascular surgery.

Thanks to this congress, Greece joined the other few European countries that organized ESCVS congresses twice. As a reminder, the 54<sup>th</sup> congress of our society has been organized in Athens in 2005.

Topics that are not only of great importance for our everyday practice but are also significant for innovative procedures, are scheduled in the scientific program. They will be presented by numerous well known and leading international experts in cardiac and vascular surgery, cardiovascular anesthesiology, cardiology, interventional radiology, as well as by doctors from other specialties. During this congress, we will have a few joint sessions with prestigious international societies and associations.

Participants of our congress will have a chance to present their own abstracts and posters. Special attention was paid to young surgeons who will have an opportunity to attend CV resident forum, as well as very interesting competitions for the Young Cardiac and the Young Vascular Surgeon Award. This is why we believe that experienced surgeons and the young ones, as well as doctors from other fields, will be able to find topics interesting to them at this Congress.

We would like to thank our hosts, Professor A. Gianoukas, Professor S. Prapas and Professor M. Matsagkas, for the well-known Greek hospitality. Collaboration with them during the past year has been a great pleasure for us. We would also like to thank all our sponsors for their support.

May we have a successful congress. Still, I hope that you will be able to find time to explore this beautiful city as well.

Friendly

**Professor Lazar Davidovic**

President of the ESCVS 2016-18

May 11<sup>th</sup> - 14<sup>th</sup>, 2017, Makedonia Palace Hotel, Thessaloniki, Greece

Dear distinguished Colleagues and precious friends,

I welcome you wholeheartedly in Thessaloniki, Greece, on the occasion of the 66<sup>th</sup> International Congress of the European Society for Cardiovascular and Endovascular Surgery to be held this year in conjunction with the annually organized International Leading Innovative Vascular Education (LIVE) Symposium from the Institute of Vascular Diseases, a non-profit scientific organization in collaboration with the Hellenic Society of Vascular and Endovascular Surgery and the Stony Brook University Medical Center of New York, USA.

ESCVS is the oldest European Society in Cardiovascular Surgery founded in 1951 from legendary figures. This society remains through the years a unique platform of collaboration and integration among the specialists in the field of cardio-vascular diseases promoting friendship, up-to-date scientific evolutions and educational opportunities among the junior doctors. Also, it is important to note that the Annual congress of the ESCVS is organized for the second time in Greece after 2005 when the 54th congress was held in Athens.

This year both Congresses ESCVS and LIVE are hosting more than 200 established international scientists and experts with enormous impact in the evolution of modern Cardiac and Vascular and Endovascular practice. We have put together all our efforts in a collaborative manner to compile an interactive scientific program including the latest developments and innovations of the cardiac and vascular field by means of lectures, scientific sessions, debates, educational workshops and common interdisciplinary sessions. This year for the first time we launched a distinct session on vascular diseases in females and the topics will be presented by female distinguished vascular surgeons and scientists. Additionally, we have proposed the E. Kieffer Lecture honoring a great surgeon, teacher, friend and past president of the ESCVS who left us last year. We have received abstracts for oral and poster presentation from all around the world, which underlines the impact of ESCVS and the fact that it is the forum which brings together colleagues and friends from all continents to discuss in a friendly environment all the latest scientific advancements.

Thessaloniki, the capital city of Macedonia, is a modern metropolis with cosmopolitan character and a meeting point of history and civilization with exquisite natural beauty. With these thoughts I welcome you in Thessaloniki, hoping that you will enjoy the ideal marriage of science with friendship and entertainment.

With our warmest regards,

**Professor Athanasios Giannoukas**  
Chair of the Local Organizing Committee

## Accreditation

### European Union of Medical Specialists

EACCME - European Accreditation Council

for Continuing Medical Education Institution of the UEMS

Avenue de la Couronne 20, B-1050, Brussels

T: +32 2 649 5164 | F: +32 2 640 37 30 | E: [accreditation@uemsnet](mailto:accreditation@uemsnet)

The 66<sup>th</sup> International Congress of ESCVS in conjunction with LIVE2017 is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) to provide the following CME activity for medical specialists. The EACCME is an institution of the European Union of Medical Specialists (UEMS), [www.uems.net](http://www.uems.net).

The 66<sup>th</sup> International Congress of ESCVS in conjunction with LIVE2017 is designated for a maximum of (or for up to) **21 hours** of European CME credits.

Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

## AMA recognized credits

Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of AMA PRA Category 1 Credits™. Information on the process to convert EACCME credit to AMA credit can be found at [www.ama-assn.org/go/internationalcme](http://www.ama-assn.org/go/internationalcme).

Live educational activities, occurring outside of Canada, recognized by the UEMS-EACCME for ECMEC credits are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of The Royal College of Physicians and Surgeons of Canada.

## Allocation of CME Credits

Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity. The EACCME credit system is based on **1 ECMEC per hour** with a maximum of **3 ECMECs for half a day and 6 ECMECs for a full-day event**.

## Technical Support Personnel

### SPEAKERS'READY ROOM: HALL OURANIA

The technical support personnel will be operating during the sessions of the scientific programme in a special hall "SPEAKERS READY ROOM" in hall Ourania in order to assist speakers/presenting authors and collect all presentations.

Presenters are requested to deliver their presentation(s) to the technical support personnel operating in HALL OURANIA at least **two (2) hour before the beginning of the Session** (in order to ensure on time they run smoothly and to be able of making any possible changes).

If the presentation is scheduled early in the morning, they are kindly requested to check their presentation with the technical support personnel the day before.

Presentations will be available in the lecture hall via computer network. There will be no possibility to connect your personal laptop in the lecture hall, due to very restricted timeslots (row of the presentations).

## A. For PPT Presentations (*applies to all presenters*)

### PPT Format (OPTIONAL)

#### Formal Requirements

**Language:** All presentations have to be given in **English** (as the official language of the congress is English and no simultaneous translation will be provided).

**Advertising:** Advertising of products is **prohibited**. Be sure your slides are free of any commercial bias (eg company names or logos).

**Patient anonymity:** Kindly make sure that no patient names or any other information allowing the identification of a patient appear in your presentation.

**Copyright reserved:** It is the author's responsibility to ensure that any part of the slide show (figures, tables, images, etc.) is free of any third party right.

#### Technical Requirements

##### Preparation

**Format:** preferable format is MS PowerPoint (ppt or ppx). *Macintosh presentations will be accepted\**.

**Versions:** up to MS PowerPoint 2017.

**Saving of files:** For onsite upload, the presentation has to be saved on a USB flash (recommended), CD-ROM or DVD-ROM.

**Video clips:** If you are using embedded video clips in your presentation, please remember to also have the video clips in a separate file (not only in the presentation).

**Fonts & character:** To avoid any possible compatibility problems, it is preferable not use any special fonts or special characters. It is very important to respect the flow of the session and the exact time available for each presentation and therefore you are requested to be consistent with the time slots. It is advisable to rehearse your presentation prior to the congress to ascertain that the **time is not exceeded**.

All lecture halls will be equipped with the following:

- LCD projector with remote control (operated by presenter)
- Screen & Lighted pointer
- Podium mounted microphone
- Audience aisle microphones

**\*To the attention of Mac users:**

Please make sure to come with the suitable adapter and to also have a backup PPT for PC or PDF. You are kindly requested to meet with the technical support personnel at least **two (2) hours before the beginning of the session**, in order to assure compatibility (or backup solutions).

**B. Time Slots (applies to Chairmen/Moderators)**

As a chairman or Moderator, you should ensure the smooth progress of the session, time management as well as encourage discussions and interactions between faculty members and the audience by allowing sufficient time for questions from the audience.

In order to be helped, a **timer** will be running on the screen along with the presentation. After a warning (before the last minute of the presentation) the projection will be stopped and you will have to ask from the presenter to conclude.

**C. Conflict of Interest Disclosure (applies to all invited faculty)**

It is the policy of the European Accreditation Council for Continuing Medical Education (EACCME) to ensure that all Live Education Events (LEEs) that receive accreditation will be balanced, independent, objective, scientifically rigorous and in the best interest of patient care. Thus, in compliance with UEMS guidelines, speakers/chairmen participating in LIVE 2017 & ESCVS 2017 are **strictly requested** to disclose or indicate potential conflicts of interest (with ESCVS sponsors) that might cause a bias. More specifically:

(Essential criterion)

*In accordance with criterion 27 of document UEMS 2012/30 "Accreditation of Live Educational Events by the EACCME", the Provider must ensure that all members of the Faculty will provide written declarations of potential or actual conflicts of interest. These declarations must be made publicly available (either in printed form or in electronic form on the website of the organizer of the LEE). The EACCME® considers it a responsibility of the head of the Scientific and/or Organizing Committee to ensure that actual conflicts of interest are resolved. The EACCME® has provided a template, available on the EACCME® website, that provides a guide as to what information must be declared. These declarations must be retained for at least one year after the event for potential review by the EACCME®.*

Therefore you **are requested (if not already done) to:**

1. Advise the ESCVS sponsors file
2. Declare any potential or actual conflict of interest regarding the above sponsors and topics of the presentation (s)
  - at the Second Slide of your PowerPoint Presentation (if speaker)
  - or orally at the beginning of the session (if chairman etc)
3. Complete and return the COI Disclosure Form (available at the Secretariat)

The existence of potential conflicts of interest does not necessarily indicate a bias. However it is your ethical obligation to inform organizers and participants so that they are made aware of any relationship with the sponsors that might cause unintentional bias. A potential conflict of interest may arise from various relationships, past or present, such as employment, consultancy, funding for research, investments, family relationship etc.

**D. Internet Corner(s)**

At the exhibition area, there will be "Internet Corner(s)", where registered participants will be able to use the available **laptops** for their work and for free access to internet.

Please note that all submitted abstracts were reviewed by an independent abstract **Review Committee**. The review, evaluation and final acceptance was based on the **best scoring** as far as work's scientific/clinical importance, results/conclusions & originality is concerned.

## For the Presentation

All presenters are kindly requested to provide their presentations (**PowerPoint format in a USB-flash/disk/CD-ROM**) to the technical support personnel operating in HALL OURANIA at least one (1) hour before the beginning of the Session (*in order to ensure on time their presentations run smoothly and to be able of making any possible changes*).

## Duration

### Oral Presentations (8 min in total)

Each oral presentation should not exceed **5 minutes**.

It will be followed by **3 minutes discussion**.

### e-Poster Presentations (5 min in total)

Each e-poster presentation should not exceed **3 minutes**.

It will be followed by **2 minutes discussion**.

Presenters need to be strictly consisted with the time slots and to respect the flow of the scientific programme.

### 16:00-19:00 AV1: PERIPHERAL ARTERIAL DISEASE

ALEXANDROS II

Moderators: I. Kakisis (Greece), S. Koutsias (Greece)

#### 16:00-16:09 KEYNOTE LECTURE

Percutaneous Rheolytic thrombectomy in Acute limb Ischemia  
Speaker: D. Tsetis (Greece)

#### 16:10-16:19 KEYNOTE LECTURE

Distal /Pedal Arterial Access for CTOs: Its use in the management of peripheral arterial  
Speaker: L. Leon (USA)

*Abstract presentations 5min +3 min discussion*

#### OP-019 Preliminary experience on the use of the TIGRIS stent for the endovascular treatment of the femoral-popliteal artery

<sup>1</sup>Sara Di Gregorio, <sup>1</sup>Bianca Pane, <sup>1</sup>Giovanni Spinella, <sup>1</sup>Valerio Gazzola, <sup>1</sup>Cecilia Perfumo, <sup>2</sup>Michele Conti, <sup>1</sup>Luca Porro, <sup>2</sup>Giulia Campanile, <sup>2</sup>Ferdinando Auricchio, <sup>1</sup>Domenico Palombo  
<sup>1</sup>Vascular and Endovascular Surgery Unit, IRCC San Martino IST, University of Genova, Italy  
<sup>2</sup>Department of Civil Engineering and Architecture, Structural Mechanics Division, University of Pavia, Italy

#### OP-020 The circumstances predisposing to the development of infectious complications in cardiovascular patients

<sup>1</sup>Anastasia Artemova, <sup>1</sup>Michael Ivanov, <sup>2</sup>Nikolay Lukyanchikov, <sup>1</sup>Dmitry Petrov, <sup>1</sup>Chatrine Maksimkina  
<sup>1</sup>Department of General Surgery of North-Western State Medical University named after I.I. Mechnikov  
<sup>2</sup>I.M. Sechenov First Moscow State Medical University

#### OP-021 Rapid Deterioration of Walking Ability in Patients with Peripheral Arterial Disease Assessed by Global Positioning System in the Community

<sup>1</sup>Markos Klonizakis, <sup>2</sup>Stephen M. Bianchi, <sup>3</sup>Marie Gernigon, <sup>4</sup>Pierre Abraham, <sup>5</sup>Shah Nawaz

### 16:00-19:00 AV2: MISCELLANEOUS - RESEARCH

AMFITRION I

Moderators: **I. Koncar** (Serbia), **G. Kouvelos** (Greece)

16:00-16:09

### KEYNOTE LECTURE

Three dimensional Carotid Ultrasound significance in asymptomatic carotid disease patients

Speaker: **T. Giannakopoulos** (Greece)

Abstract presentations 5min +3 min discussion

### OP-034 Abdominal aortic surgery in the presence of inferior vena cava anomalies

<sup>1,2</sup>Andreja Dimić, <sup>1,2</sup>Miroslav Marković, <sup>1,2</sup>Slobodan Cvetković,

<sup>2</sup>Ilijas Činara, <sup>1,2</sup>Igor Končar, <sup>2</sup>Ivan Tomić, <sup>1,2</sup>Lazar Davidović

<sup>1</sup>Faculty of Medicine, University of Belgrade, Belgrade, Serbia

<sup>2</sup>Clinic for Vascular and Endovascular Surgery, Clinical Centre of Serbia, Belgrade, Serbia

### OP-035 Combined carotid and coronary artery disease

**Consecutive carotid and coronary surgery for combined carotid and coronary artery disease in patients with high SYNTAX Score**

Akmal Irnazarov, Saidamir Djafarov, Rustambek Karimov

Department of Faculty and Hospital Surgery, Tashkent Medical Academy, Tashkent, Uzbekistan

May 11<sup>th</sup> - 14<sup>th</sup>, 2017, Makedonia Palace Hotel, Thessaloniki, Greece

## Thursday, May 11, 2017

### OP-036 Does nighttime surgery affect short-term survival in patients who have undergone urgent open repair of ruptured abdominal aortic aneurysm?

<sup>1</sup>Ksenija Stevanovic, <sup>1</sup>Ranko Trailovic, <sup>2</sup>Ivan Tomic, <sup>1</sup>Biljana Kukic, <sup>2, 3</sup>Miroslav Markovic, <sup>2, 3</sup>Lazar Davidovic

<sup>1</sup>Center for Anaesthesiology and Resuscitation, Clinical Center of Serbia

<sup>2</sup>Clinic for Vascular and Endovascular Surgery, Clinical Center of Serbia

<sup>3</sup>School of Medicine, University of Belgrade, Serbia

### OP-037 In situ reconstruction of distal artery aneurysm

Jérémie Jayet, Jean-Michel Davaigne, Philippe Tresson,

Thibault Couture, Mahine Kashi, James Lawton, Julien Gaudric,

Laurent Chiche, Fabien Koskas

Vascular Surgery Department, La Pitié Salpêtrière Hospital, Paris, France

### OP-038 Interplay between depression and atherosclerosis: a pilot study

<sup>1</sup>Vasilios Saleptsis, <sup>2</sup>Maria Papaliaga, <sup>1</sup>George Kouvelos,

<sup>1</sup>Konstantinos Spanos, <sup>1</sup>Nikolaos Rousas, <sup>1</sup>Panagiotis Spiliotis,

## 15:00-18:00 WORKSHOP: ANASTOMOTIC SKILLS LAB

MELPOMENI

Course director: **P. Sergeant** (Belgium)

The scholars will be guided through a crash course in modern anastomotic skills allowing to work in extremely reduced airspace on unstable targets.

The anastomosis is first deconstructed in teachable components and then reconstructed in real anastomoses on low fidelity non-biological grafts and simulators.

After the course the scholars will be invited to an online learning environment for continued practice and monitoring.

sponsored by **ETHICON**

## 15:30-17:30 VENOUS WORKSHOP

AMFITRION II

Current updates in Venous diseases treatment

Convenors: **A. Giannoukas** (Greece), **T. Urbanek** (Poland)

15:30-16:30 **Part 1** (rotation of 4 groups)

15:30-15:44 Station 1: Foam Sclerotherapy and Ultrasound guided Vein Access  
**D. Kontothanassis** (Italy)

15:45-15:59 Station 2: Endovenous procedures with laser (Biolitec)  
**T. Urbanek** (Poland)

16:00-16:14 Station 3: Laser treatment for varicose veins (Angiodynamics)  
**Ch. Karathanos** (Greece)

16:15-16:29 Station 4: Endovenous procedures with RF (VNUS)  
**A. Lazaris** (Greece)

16:30-17:30 **Part 2** (rotation of 4 groups)

16:30-16:44 Station 5: Mechano-chemical Tumescentless Endovenous treatment (ClariVein)  
**A. Gasparis** (USA)

16:45-16:59 Station 6: Tumescentless endovenous treatment with glue (Medtronic)
